

Michel Barnier
European Chief Negotiator
Taskforce on Article 50 negotiations with the UK
Rue de la Loi 200
Berlaymont - 1049 – Brussels

Rt Hon David Davis MP
Secretary of State, Department for Exiting the EU
9 Downing Street
London, SW1A 2AS

20 April 2018

Dear Mr Barnier and Mr Davis,

As leading European and UK companies and investors, we recognise that climate change poses one of the greatest long-term threats to our economies and societies. We strongly urge both the UK and EU27 to commit to continuing to work together to meet the commitments set out in the Paris Agreement, in any future relationship.

To ensure this is achieved, we call on you, in the Brexit negotiations, to develop a comprehensive Climate and Energy Chapter, which covers both trade and non-trade issues. The integration of energy markets and climate policies across Europe has enhanced energy and climate security and reduced energy bills in the UK and the EU 27. The Brexit negotiations should aim to ensure that these benefits continue in the future.

We welcome the intention for prioritisation of security and defence in the negotiations and also urge you to expand this commitment to combatting climate change.

This will help to ensure our climate and energy security is protected, it will foster innovation and economic growth and it will help ensure the EU and UK remain leaders in the global battle against climate change.

Yours Sincerely,

Steve Waygood
