

Herbalife Nutrition Foundation

Herbalife Nutrition Foundation is devoted to providing good nutrition and nutrition education to the world's children by providing funding to its 140 community-based Casa Herbalife Nutrition partners around the globe.

In Belgium, we support 'Pedagogisch Centrum Wagenschot. The organisation offers guidance, treatment, training and vocational education for 150 youngsters with emotional and behavioural needs. HNF funds raised by our Herbalife Nutrition members support nutrition education, healthy meals, sports activities and, this year, will help renovate the centre's kitchen facilities.

We also make sure that the centre's children have fun! Nine Wagenschot kids recently had an unforgettable day at the Belgian Football Centre, the training camp of the Red Devils - Belgium's national football team. The day was made possible through Herbalife Nutrition's relationship with the Royal Belgian Football Association (KBVB) as its official sports nutrition supplier. Together, we believe that, in addition to good nutrition and a supportive environment, every child should be able to enjoy their childhood. Find out more about how Wagenschot helps vulnerable children by reading some of their stories below.

When L. entered Pedagogisch Centrum Wagenschot, she was malnourished, shy and withdrawn. She'd been abandoned by her parents and was living on the streets. At Wagenschot, care workers and volunteers tried to communicate with her but no one was able to establish a relationship with her because she didn't trust people. By getting daily healthy meals, she became stronger. Knowing that she would get meals every day, L. became more socialable and started to trust people again. Now, two years later, she's an award-winning artist and performs well in school thanks to her new healthy lifestyle.

M's parents sadly didn't have the means to take care of him and has been at Pedagogisch Centrum Wagenschot for several years. He's a conscientious boy and a hard worker. With the money HNF has donated, Wagenschot has paid for his football training and a football internship. Wagenschot makes sure M. gets a healthy diet to help him play at his best - one day he wants to be like Cristiano Ronaldo! M is very grateful to Herbalife Nutrition Foundation for the opportunities they've given him.

These are just some of the stories from the many children we help with through the Herbalife Nutrition Foundation. We'll continue our efforts to raise as much money as possible to help even more children have a brighter future.
